Express Your Luxury

OUR STORY

Gentleman No. 4 was created by our company founder with the image of elegance, luxury, and determination in mind.

Our founder is the first African American to receive a doctoral degree in chemistry at the New Jersey Institute of Technology. As a byproduct, the company is familiar with entering uncharted territory. Our leadership team views the pursuit of joining the fragrance industry no differently.

From the crystallization of a dream, our founder understands the need to introduce a product created and designed by scientists with identical credentials to those who develop similar luxury goods for larger fragrance houses.

ABOUT US

Our team consists of innovators, designers, and tastemakers passionate about fragrance and fashion. Founded in 2019, our team has continuously strived for perfection by contributing all our resources to provide quality products, eloping luxury and sophistication. Our flagship product, *Gentleman No. 4*, is a true testament to our mission of delivering high-quality products from the efforts of the research and development team, who have worked for two years to offer a cologne that embodies the essence of a true gentleman.
